THEME: USING YOUR VOICE AGAINST YOUTH VIOLENCE

Our youth play a vital part in preventing youth violence through their verbalized suggestions and ideas to maintain safe school and community environments. Youth Crime Watch (YCW) of Miami-Dade County is asking the students of Miami-Dade County Public Schools to develop an action plan in voicing their ideas and suggestions on speaking up to prevent youth violence by answering the following questions:

- What is violence?
- What are some ways you can use your voice in speaking up to prevent violence in your school?
- What are some ways you can use your voice in speaking up to prevent violence in your community?
- Which ideas and suggestions would you include in a speech to inform others to prevent youth violence?
- What would you do to educate your school classmates to use their voices in speaking up to prevent youth violence?
